POCKET FIRST AID KIT

Standard size first aid kits are too large for the average size shirt pocket. As an answer to this problem, a Bureau employee developed and submitted as a suggestion a simple pocket size first aid kit which would fit a shirt pocket or cruiser's vest.

The kit is contained in a plastic cigarette case which measures 2 3/4" by 2 1/2" by 1 1/2". Contents may vary and the case can be expanded to hold additional items.
